

Enclosed is our 2013 - 2016 Integrated Health Service Plan for Waterloo Wellington. It is our most ambitious plan yet – setting the direction for improving the health and well-being of our residents.

This Plan is much more than a document. It is a commitment that we share (the Waterloo Wellington LHIN and all 78 of our Health Service Providers) as leaders and partners in the healthcare system; a promise to our residents that we are moving forward with one vision, and positive action, to deliver better health and better futures for our local communities.

You, your patients/clients, your staff, and the general public are invited to join us this May at our events scheduled throughout Waterloo Wellington that will bring our Plan to life...

Welcome to the Watershed: Improving Your Health by Focusing on You

We all want to be as healthy as possible. Getting the right care to stay healthy is an important part of your well-being and the strength of our entire community. You are invited to meet your local health system leaders from the Waterloo Wellington Local Health Integration Network and join us in a discussion of the ways our new three-year plan will deliver **better access, better patient experience and better value for you!**

This is a watershed moment – a crucial turning point where we are focusing on resident-focused care for Better Health – Better Futures.

Come and be a part of this momentum at our Public Forums!

Please see the attached poster for more information on our public forums. We ask you to share this information with others and encourage you to join us. There will also be separate governance forums in June for Board Members of our health service providers, for which they will receive invitations.

If you have questions about these events please contact the Waterloo Wellington Local Health Integration Network using the contact information below.

You are invited to join us for a
Forum on our Local Health System
